

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

## VOLUME III.

1845-1847.

	PAGE.
THEORY of Quaternions. By Sir W. R. Hamilton. . . . .	1, 109, 273
Returns laid on the Table by order of Council. . . . .	17
Letter read from Rev. T. R. Robinson, D. D., on the Periodical Meteors of 10th August. . . . .	18
An Account of two remarkable Halos and Paraselenæ observed in May and June last. By Rev. H. Lloyd, D. D. . . . .	18
On an ancient wooden Table and Dish, dug up in Peat or Turf Bog. By Rev. Thomas Porter, D. D. . . . .	21
On the original Use of certain Golden Ornaments and other Arti- cles in the Museum of the Royal Irish Academy. By Robert Ball, Esq. . . . .	25
On Diverging Infinite Series, and on certain Errors connected there- with. By Professor Young, of Belfast. . . . .	27
On the Subject of Total Reflexion. By Professor Mac Cullagh. . .	49
On Algebraic Triplets. By Rev. Charles Graves, A. M. 51, 57, 80, 105	
On "Dugald Stewart's Explanation of certain Processes in the Human Understanding." By the Rev. James Wills. . . . .	65
On two undescribed Algæ. By Dr. Allman. . . . .	67
On Lord Rosse's Telescope. By the Rev. T. R. Robinson. . .	68, 114
A Letter read from Charles Bourns, Esq., giving an Account of the Excavation made in the Round Tower of Lusk. . . . .	68
On the Construction and Results obtained with the Six-foot Re- flecting Telescope of the Earl of Rosse. (See p. 114). . . . .	74
On the present State of the Ancient Ecclesiastical Remains of Iona. By J. Huband Smith, Esq. . . . .	76
On some Geometrical Theorems relative to Elliptic Functions. By Wm. Roberts, Esq., F. T. C. D. . . . .	77
On the maximum Amount of Resistance required to sustain Banks of Earth. By John Neville, Esq. . . . .	84
On a new Photographic Process, which he calls the Catalysotype. By Dr. Thomas Woods. . . . .	89

	PAGE.
A Sealed Packet, deposited with the Academy by Robert Mallet, Esq., opened at his request. . . . .	98
A Note from Edward Clibborn, Esq., on Gold Ornaments lately found near Naas. . . . .	99
On ancient Wax Tablets, presented to the Academy by the Rev. J. Spencer Knox. By Rev. J. H. Todd, D. D. . . . .	99
On the Quantity of Rain which fell at Toomavara during five Years since 1827. By Rev. Thomas Knox. . . . .	100
Description of a remarkable Lunar Halo and Parasalene seen in the Queen's County. By E. W. Chetwoode, Esq., and others. . .	103
Notice of a New Electric Clock. By Richard Sharpe, Esq. . . .	105
On an ancient Inscription on a Tombstone. By George Petrie, Esq. . . . .	108
Suggestions relating to the Improvement in working Atmospheric Railways. By R. Mallet, Esq. . . . .	108
On two Methods of solving Biquadratic Equations. By the Rev. Charles Graves. . . . .	111
On the Crotal. By Robert Ball, Esq. . . . .	135
Notice of an Ogham Stone found in the County of Wexford. . .	136
On the Zodiacal Light. By E. J. Cooper, Esq. . . . .	138
On the Storm of the 6th of July, 1845. By William Hogan, Esq. .	140
Account of recent Excavations in the Round Towers of Clonmacnoise. By Colonel Harry D. Jones, R. E. . . . .	144
Account of Rubbings exhibited from a Rock at Drumlish. By Colonel Harry D. Jones, R. E. . . . .	147
On Algebraic Curves and Surfaces. By Charles Graves. . . .	151
On the Authorship of the Poem entitled the "Exile of Erin." By the Rev. W. H. Drummond, D. D. . . . .	157
Memoir of the Dublin Philosophical Society of 1683. By W. R. Wilde, Esq. . . . .	160
On Phonetic Hieroglyphics. By the Rev. Dr. Hincks. . . .	177, 189
On an ancient Way-side Cross. By J. Huband Smith, Esq. . . .	180
On Discontinuous Functions. By George Boole, Esq., of Lincoln. .	182
Dr. Allman announced the addition of Diotis Maritima to the Irish Fauna. . . . .	184
On the Mechanics of Earthquakes. By Robert Mallet, Esq. . .	186, 192
Observations on abnormal Movements of the Magnets in the Dublin Observatory. By the Rev. H. Lloyd, D. D., President. . . .	192
Address to the Academy of Sir W. R. Hamilton, on retiring from the Presidency . . . . .	199
Inaugural Address of the Rev. H. Lloyd, D. D., on his Election to the Presidency of the Academy. . . . .	203
On a certain Definite Multiple Integral. By George Boole, Esq., of Lincoln. . . . .	217

	PAGE.
On the Larva State of <i>Plumatella</i> , and on the Anatomy of <i>Polycera Quadrilineata</i> . By Dr. Allman. . . . .	218, 220
On an Irish Manuscript preserved in the Royal Library, Paris. By the Rev. J. H. Todd, D. D. . . . .	223
On a Rubbing from the Tombstone of William O'Byrne. By J. Huband Smith, Esq. . . . .	229
On a Provision in the Fœtus of the Spined Dog Fish. By Robert Ball, Esq. . . . .	230
On Passages in the Life of Shakspeare. By the Rev. N. J. Halpin. . . . .	231, 233
Some Remarks on Comets. By E. J. Cooper, Esq. . . . .	236, 258, 294
On the Variations of the Magnetic Declination of Dublin. By the Rev. H. Lloyd, D. D., President. . . . .	236, 237
On the <i>Apteryx Australis</i> . By R. Ball, Esq. . . . .	247
On the Remains of a Cedar Ship found near Tyrella, County of Down. By G. A. Hamilton, Esq., M. P. . . . .	248
On "A North House," in the Demesne of Hampton, and the Opening of a Tumulus near Knockingen. By G. A. Hamilton, Esq., M. P. . . . .	249
On the Equilibrium and Motion of Elastic, Solid, and Fluid Bodies. By the Rev. Samuel Haughton, F. T. C. D. . . . .	252
The Book of Armagh, deposited in the Library of the Academy. . . . .	259
Remarks on presenting a Collection of Celtic Antiquities. By W. R. Wilde, Esq. . . . .	260
On Persepolitan Writing. By the Rev. Edward Hincks, D. D. . . . .	263, 265
The Objects, Construction, and Use of certain new Instruments for Self-Registration of Earthquake Shocks. By R. Mallet, Esq. . . . .	266
Some Observations on two Passages of Archimedes de <i>Sphæra et Cylindro</i> . By C. T. Barnwell, Esq. . . . .	268
On the Anemometer of Osler. By Rev. H. Lloyd, D. D., President, . . . . .	270
Address to the Earl of Besborough, Lord Lieutenant, &c., with his Answer. . . . .	297
On a new Instrument for observing the Magnetic Dip. By the Rev. H. Lloyd, D. D., President. . . . .	298
On the Discovery of Iron Cores in certain Bronze Antiquities in the Museum of the Academy. By Edward Clibborn, Esq., Curator of the Museum. . . . .	299
Observations made at Markree Observatory on Le Verrier's Planet. Communicated by E. J. Cooper, Esq. . . . .	301, 363
On a definite Integral. By Rev. William Roberts. . . . .	305
On Theorems of central Forces. By Sir W. R. Hamilton, LL.D. . . . .	308
Some Observations on Sir William Hamilton's Communication. By Rev. Charles Graves. . . . .	309
An Account of the Formation of the Museum at Copenhagen, and	

	PAGE.
general Remarks on the Classification of the Antiquities found in the North and West of Europe. By J. J. A. Worsaae, Esq., of Copenhagen. . . . .	310, 327
On Persepolitan Writing. By Rev. Dr. Hincks. . . . .	315, 344, 359
On the Date of the MS. called the Book of Armagh. By Rev. Charles Graves. . . . .	316, 356
On the Use of distributive Signs of Operation, both real and imaginary, in the Construction of Systems of Algebra. By the Rev. Charles Graves. . . . .	325
A new Method of expressing, in symbolical Language, the Newtonian Law of Attraction, &c. By Sir W. R. Hamilton, LL.D. . . . .	344
Professor Madler's Work, <i>Die Centralsonne</i> . Exhibited by Sir W. R. Hamilton, LL.D. . . . .	353
A Chart of observed Places of Le Verrier's Planet. Exhibited by Sir W. R. Hamilton, LL.D. . . . .	ib.
On the Attraction of Ellipsoids. By James MacCullagh, LL.D. . . . .	367
On the Rotation of a Solid Body. By James MacCullagh, LL.D. . . . .	370
On the supposed Identity of the Agent in the Phenomena of ordinary Electricity, voltaic Electricity, Electro-magnetism, Magneto-electricity, and Thermo-electricity. By M. Donovan, Esq. . . . .	372, 402, 427, 467
An Account of a Fragment of an ancient purple MS. of the Gospels. By Rev. J. H. Todd, D.D. . . . .	374
On the Lines of Curvature on the Surface of the Ellipsoid. By M. Roberts, F. T. C. D. . . . .	383
A Theorem relating to the Hyperbolæ. By M. Roberts, F. T. C. D. . . . .	385
On the Anatomy of the Elephant. By Robert Harrison, M.D. . . . .	ib.
Letter from E. J. Cooper, Esq., on the Discovery of a new Comet. . . . .	399
On the diurnal Changes of Temperature recorded at the Magnetical Observatory of Trinity College. By Rev. H. Lloyd, D. D., President. . . . .	401
On a Theorem of Hodographic Isochronism. By Sir W. R. Hamilton, LL.D. . . . .	417
On the Structure of the Fruit and Mechanism of Dehiscence in some of the Hepaticæ, &c. On the external Anatomy of <i>Chelurus</i> , Phil., &c. By G. J. Allman, M.D. . . . .	419
On the Composition of Essential Oil of <i>Laurus Sassafras</i> . By Sir Robert Kane. . . . .	425
On the Equation of Surfaces of the second Order. By James MacCullagh, LL.D. . . . .	429
Remarks on the Same. By Rev. Charles Graves. . . . .	434
Researches in Thermo-chemistry. By James Apjohn, M. D. . . . .	435
An ancient Irish Brooch exhibited, belonging to the Rev. Richard Butler. . . . .	441
On certain Properties of the Surfaces of second Degree. By J. K. Ingram, Esq. . . . .	442

	PAGE.
On some ancient Inscriptions in Scotland. By John Ramsay, Esq., of Heading-hill, Aberdeen. . . . .	445
Some Remarks on the preceding Communication. By George Petrie, Esq. . . . .	452
On a Mode of ascertaining the general State of the Weather. By Lieutenant Steevenson, R.N. . . . .	454
On the Development of a Function in Factorials of the variable upon which it depends. By Rev. Charles Graves. . . . .	455
On an antique Gold Ornament, the Property of the Earl of Leitrim. By Rev. Charles Graves. . . . .	460
A Theorem of Anthodographic Isochronism. By Sir W. R. Hamilton, LL.D. . . . .	465
On some Improvements in the Construction and Use of the Galvanic Battery. By Rev. Dr. Callan, Professor of Natural Philosophy in the College, Maynooth. . . . .	471
On the MSS. relating to Ireland in the Burgundian Library at Brussels. By S. H. Bindon, Esq. . . . .	477
On certain Properties of Curves and Surfaces of the second Degree. By J. K. Ingram, Esq. . . . .	502
On the Application of the Calculus of Quaternions to the Theory of the Moon. By Sir William R. Hamilton, LL.D. . . . .	507
On the Composition and Optical Properties of Hyalite. By James Apjohn, M. D. . . . .	521
On the Effect of Heat in lessening the Affinity of the Elements of Water. By Rev. T. R. Robinson, D. D. . . . .	525
On an Extension of a Theorem of Euler. By Professor Young. . . . .	526
On a Theorem respecting Products of Sums of Eight Squares. By John T. Graves, Esq. . . . .	527
On the Association of Ideas. By Rev. James Wills. . . . .	531
On a Leaden Seal of Herbert de la Mara. By Sir William Betham. . . . .	534
On the Solution of linear differential Equations, and other Equations of the same kind, by the Separation of Symbols. By Rev. Charles Graves. . . . .	536
On the Generation of Surfaces of the Second Degree. By Rev. George Salmon. . . . .	ib
On the Mission of the Father Hugo de Burgo to Belgium in 1644. By S. H. Bindon, Esq. . . . .	538

OBJECTS EXHIBITED,—pp. 247, 260, 263, 266, 270, 272, 441, 460, 465.

RESOLUTIONS,—pp. 25, 65, 73, 109, 110, 111, 138, 151, 191, 192, 201, 217, 237, 260, 263, 272, 356, 416, 507 531,.

ELECTION OF COUNCIL,—pp. 69, 186, 201, 221, 416, 531.

ELECTION OF MEMBERS,—pp. 1, 17, 25, 64, 72, 74, 77, 105, 109, 138, 151, 186, 191, 203, 233, 259, 305, 325, 355, 383, 419, 455, 507.

DONATIONS,—pp. 16, 21, 22, 54, 64, 65, 72, 73, 74, 76, 100, 110, 137, 149, 150, 176, 184, 191, 193, 202, 221, 231, 236, 258, 260, 263, 272, 295, 303, 324, 354, 361, 381, 408, 417, 435, 454, 465, 505, 529, 539.

REPORTS OF COUNCIL,—pp. 70, 194, 411.

TREASURER'S ACCOUNT,—p. 75.

BY-LAWS RELATING TO HONORARY MEMBERS,—p. 355.

## APPENDICES.

	PAGE.
Minutes of Council, No. I. . . . .	i
Meteorological Journal, from 1st January to 31st December, 1844.	
By George Yeates, Esq. No. II. . . . .	xviii
Illustrations from Geometry of the Theory of Algebraic Quaternions. By Sir W. R. Hamilton. No. III. . . . .	xxxi
Synopsis of the Accounts of the Royal Irish Academy, from 17th March, 1816, to 31st March, 1846. No. IV. . . . .	facing page 1
Additional Applications of his Theory of Algebraic Quaternions. By Sir W. R. Hamilton. No. V. . . . .	li
Meteorological Journal, from 1st January to 31st December, 1845.	
By George Yeates, Esq. No. VI. . . . .	lxi
On the Peculiarities of the Anatomy of the Emu. By Professor Harrison. No. VII. . . . .	lxvii
Accounts of the Royal Irish Academy, from 1st April, 1845, to 31st March, 1846. No. VIII. . . . .	lxxxiii
Meteorological Journal, from 1st January to 31st December, 1846.	
By George Yeates, Esq. No. IX. . . . .	xevii
Abstract of the Account of the Academy. No. X. . . . .	ciii
Account of the Royal Irish Academy, from 1st April, 1846, to 31st March, 1847. No. XI. . . . .	cv

INDEX  
OF CONTRIBUTORS' NAMES TO PROCEEDINGS.  
VOLUME III.

---

- Allman, 67, 184, 218, 220, 419.—Apjohn, 435, 521.  
Ball, 25, 135, 230, 247.—Barnwell, 268.—Betham, 534.—Bindon, 477,  
538.—Butler, 441.—Boole, 182, 217.—Bourns, 68.  
Callan, 471.—Chetwode, 103.—Clibborn, 99, 299.—Cooper, 138, 236,  
258, 294, 301, 363, 399.  
Donovan, 372, 402, 427, 467.—Drummond, 157.  
Graves, Rev. C., 51, 57, 80, 105, 111, 151, 309, 316, 325, 356, 434, 455,  
460, 536.—Graves, J. T., 527.  
Halpin, 231, 233.—Hamilton, G. A., 248, 249.—Hamilton, Sir W. R., I,  
109, 199, 273, 308, 344, 353, 417, 465, 507.—Harrison, 385.—Haugh-  
ton, 252.—Hincks, 177, 189, 263, 265, 315, 344, 359.—Hogan, 140.  
Ingram, 442, 502.  
Jones, 144, 147.  
Kane, 425.—Knox, Rev. T., 100.  
Lloyd, 18, 192, 203, 236, 237, 270, 298, 401.  
Mallet, 108, 186, 192, 266.—Mac Cullagh, 49, 367, 370, 429.  
Neville, 84.  
Petrie, 108, 452.—Porter, 21.  
Ramsay, 445.—Roberts, Rev. M., 383, 385.—Roberts, Wm., 77, 305.—  
Robinson, 18, 68, 114, 525.—Rosse, Lord (see Robinson).  
Salmon, 536.—Sharpe, 105.—Smith, J. H., 76, 180, 229.—Stevenson,  
454.  
Todd, 99, 223, 374.  
Worsaae, 310, 327.—Wilde, 160, 260.—Wills, 65, 531.—Woods, 89.  
Young, 526.
